

PEDRO GUTIERRE

SOFTWARE ENGINEER

PHOFILE

Hello! I'm Pedro Gutierre, a Software Developer currently pursuing my degree, with a focus on developing modern applications and web systems. I have experience building user interfaces with React, Next.js, and TypeScript, as well as developing scripts with Python. Expanding my expertise into software engineering and back-end architecture, I have developed initial projects and built a strong foundation in the Java ecosystem, along with hands-on experience with React Native.

EDUCATION

2021 - 2023
TECHNICAL HIGH SCHOOL DIPLOMA -
FIAP SCHOOL

2024 - 2027
BACHELOR'S DEGREE IN SOFTWARE
ENGINEERING 6TH SEMESTER - IN
PROGRESS

EXPERIENCE

2024 - PRESENT

FIAP | Av. Lins de Vasconcelos, São Paulo

IT Infrastructure Intern

- I provide support and assist in managing technological infrastructure, gaining hands-on experience with hardware and equipment maintenance. In my free time, I proactively develop scripts and network automation tools, focusing on optimizing operational workflows and remotely managing terminals. Additionally, I continuously develop my Full-Stack skills, applying software engineering concepts to personal and side projects.

SKILLS

- Languages & Frameworks: JavaScript, TypeScript, Python, Java, React, Next.js, React Native.
- Styling & Design: TailwindCSS, Figma, Canva.
- Tools & Methodologies: Git, GitHub, SCRUM, Relational Databases (Foundational) Systems Automation.
